

Guidelines for the PPT Presentation

The first slide should include the title of the paper, the presenter's name, and USN.

Each slide must have a slide number and a footer mentioning the title of the paper.

The slides should cover all the points as outlined below.

- **Introduction:**
 - Briefly introduce the topic.
 - State the problem or research question.
 - Outline the objectives of the study.
- **Literature Survey:**
 - Summarize relevant previous research.
 - Highlight gaps or limitations in existing studies.
 - Justify the need for your research.
- **Methodology:**
 - Describe the research design and methods used.
 - Explain the rationale behind choosing these methods.
 - Include details about data collection and analysis.
- **Implementation:**
 - Detail the practical steps taken to carry out the research.
 - Discuss any tools, technologies, or frameworks used.
 - Provide insights into the process and any challenges faced.
- **Results:**
 - Present the findings of your research.
 - Use charts, graphs, and tables to illustrate key points.
 - Interpret the results in the context of your research question.
- **Conclusion:**
 - Summarize the main findings.
 - Discuss the implications of your results.
 - Suggest areas for future research.
- **References:**
 - List all the sources cited in your presentation.
